MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMIC CONDITIONS

The global economy started reviving, after dealing with the prolonged effects of the global crisis. Economic activity revived in developed countries, though downside risks persist due to tight financial conditions. As regards the global economy, growth in the United States is somewhat weaker in recent past partly because of US dollar appreciation, but is likely to improve. The Euro area has started to show modest improvement, supported by a boost to demand from lower crude prices and the depreciation of the euro. Even for Japan, growth turned positive in Q4 of 2014 and consumer confidence and exports are picking up. China continues to witness sluggish economy. In sum total, global growth is likely to firm up going forward, supported by weak energy prices.

INDIAN ECONOMIC REVIEW

The Indian economy have went through a rising phase of GDP growth in the year 2015-16 and the same trend is assuming in 2016-17 fiscal year also. Our country’s economy is showing its potentials. The new Government is committed to put the economy on growth path with a focus on expand the business & creation of jobs by various methods like ease of doing business, startup India, Standup India, Make in India and Digital India. It is committed to give impetus especially to manufacturing activity which has shown a negative trend during several years in past.

The economy today is much better than what it was a year ago. The present government has taken a lot of measures towards improving the business sentiments and removing the hurdles in the economic growth. Also, the declining commodity prices, especially that of crude, will further strengthen our macroeconomic fundamentals. It will also help in reducing inflation and drive the interest cost down and improve the profitability of business entities as well.

OPPORTUNITIES AND THREATS

> OPPORTUNITIES

As reported earlier, with the improvement in the outlook of the Indian economy and global growth prospects over the past few months and a stable and pro-reform government at the centre, the Indian capital market is expected to perform well as is visible in current rally which has taken the markets to all time high levels.

The following factors present specific opportunities across our Businesses:

- a) Focus on reforms will provide opportunities for sustainable growth of Indian economy leading to investment/capital requirement;
- b) Focus on financial inclusion will lead to wider participation from all levels of investors;
- c) Regulatory reforms aiding greater participation by all classes of investors.

> THREATS

The performance of capital market in India has a direct correlation with the prospect of economic growth and political stability. With the Indian growth declining in the past year or two, the level of confidence of corporates has gone down which in turn has an impact on their expansion plans with the result that investment activity is at one of its lowest. Despite great opportunities, there are significant factors presenting threats to our businesses viz.

- a) Lack of Expertise in fund based and non fund based activities;
- b) Increased competition from local and global players operating in India;
- c) Continuous downward pressure on the fees, commissions and brokerages caused by heightened competition and willingness of most players to deliver services at very low fees;
- d) Increased competition from local and global players operating in India;

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The company has an Internal Control System commensurate with its requirement and size of business to ensure that the assets and interest of the company assets are safeguarded. The adequacy and effectiveness of the internal control across various activities, as well as compliance with laid down system and policies are comprehensively and frequently monitored by your company's management at all the levels of the organization. The company has established well defined policies and processes across the organization covering all major activities including authority for approvals. In all cases where monetary decisions are involved, various limits and authorities are in place.

The Audit Committee of the Board of Directors review the existing audit procedures and internal systems of control on an ongoing basis keeping in mind the organization's requirements, growth prospects and ever evolving business environment. They also review the internal audit findings and recommendations and ensure that corrective measures are implemented.

RISKS AND CONCERN

Risk is an integral part of the business and we aim at delivering superior shareholder value by achieving an appropriate balance between risks and returns. The financial services industry is subject to continuously evolving legislative and regulatory environment due to increasing globalisation, integration of world markets, newer and more complex products & transactions and an increasingly stringent regulatory framework.

Our senior management identifies and monitors the risks on an ongoing basis and evolve processes/systems to monitor and control the same to contain the risks to minimum levels. Ongoing monitoring by our officials help in identifying risks early. If required, a risk event update report is periodically placed before the Board of Directors of the Company

Regulatory framework, focused on maintaining controls on domestic businesses but even inadvertently creating more favorable regulatory environment for global entities operating in India is a matter of concern. We actively

participate in dialogue in industry bodies and with regulators to point these out and to recommend appropriate changes.

Annexure B “to the Independent Auditor's Report of even date on the Standalone Financial Statements of ARYAMAN FINANCIAL SERVICES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **ARYAMAN FINANCIAL SERVICES LIMITED** ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of challenges in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us the Holding Company and its subsidiaries have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on internal control over financial reporting criteria established by these Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
